Note 1: N.B. Please note APC do not support the free version of VMware ESXi. A VMware license is required. However, PowerChute Network Shutdown will shutdown the VMware ESXi 3.5 SP3 free version. Please refer to Knowledge Base **Answer ID #10727** at www.apc.com/support for further information. PowerChute Network Shutdown currently supports VMware Infrastructure Management Assistant (VIMA) 1.0 and vSphere Management Assistant VMA 4.0. VIMA will only run on either EM64T or AMD64 (Rev E and above only)
